Ordering a custom instrument is a life-long dream for most guitarists. With Jackson Guitars, you can get the instrument that you have always dreamed of and know that it will live up to your expectations.

Our Custom Shop has been making custom guitars longer than any other factory in America and many of the original staff are still with us to this day. Building a custom instrument by hand takes a considerable amount of time, so please keep this in mind when you place your order. Typical construction time can be as long as 30 weeks.

Good things are worth waiting for, so please be patient with us after you place your order. We give a "Limited Lifetime Warranty" with our custom shop guitars and in order to do this we must be allowed the time to build your instrument properly. Please contact an authorized Jackson Guitar dealer to place your order today.

Please review every specification on this document before signing. Quote valid for 30 days.
